About this guide

This aim of this guide is to help you and your maintenance team keep your go-karts in top condition.

This guide contains drawings, illustrations and photographs of parts and accessories for all (adult) single and double seat J&J go-karts manufactured in model year 2013 and newer (at time of publishing). This guide excludes the following go-kart models: Talon, Stinger, and Falon (child sized go-karts)

Specifications and prices subject to change without notice | Illustrations depicted in this parts book are for parts ordering only. Always check service manual for proper assembly.

Safety first

Proper service and repair procedures are vital to safe, reliable operation of go-karts and bumper boats, as well as for the personal safety of those performing repairs. Refer to your Service Manual for servicing and repairing information. Always use safe and effective methods. The Service Manual contains many NOTES, CAUTIONS and WARNINGS which should be followed along with standard safety procedures to eliminate the possibility of personal injury or improper service, which could be damaging to your equipment or compromise its safety.

It is important to note that repair procedures, techniques, tools and parts for servicing go-karts and bumper boats as well as the skill and experience of the individual performing work vary widely. It is not possible to anticipate all conceivable ways or conditions under which go-karts and bumper boats may be serviced or to provide cautions to all possible hazards that may result. Standard precautions should be used when handling toxic or flammable fluids, and safety goggles or other protection should be used during cutting, grinding, chiseling, prying or any other process that can cause material removal or projectiles. J&J recommends the use of safety goggles or approved glasses during all servicing.

All information contained in this Parts Guide is based on the latest product information and prices available at time of printing. We reserve the right to make changes at any time without notice. No part of this publication may be reproduced, stored in a retrieval system or transmitted, in any form, by any means (electronic, mechanical, photocopying, recording, or otherwise) without the prior written permission of J&J Amusements, Inc. A Corporation of Oregon and FunParts Xpress. This includes text, figures and tables.

Before servicing

To eliminate unnecessary work, careful reading of the applicable section is recommended before starting to service a go-kart, . Photographs, diagrams, notes, cautions, warnings, and detailed descriptions have been included wherever necessary. Nevertheless, even a detailed account has limitations; a certain amount of basic knowledge is also required for successful work.

Especially note the following:

Dirt

Before removal and disassembly, clean the go-kart. Any dirt entering the engine or other parts will work as an abrasive and shorten the life of those parts. For the same reason, before installing a new part, clean off any dust or metal filings.

Tightening Sequence

Generally, when installing a part with several bolts, nuts or screws, start them all in their holes and tighten them to a snug fit. Then tighten them evenly in a cross pattern. This is to avoid distorting the part and/or causing gas or oil leakage. Conversely, when loosening the bolts, nuts or screws, first loosen all of them by about a quarter of a turn and then remove them. Where there is a tightening sequence indication in this Service Manual, the bolts, nuts or screws must be tightened in the order and method indicated.

Torque

When torque values are given in this Service Manual, use them. Either too little or too much torque may lead to serious damage. Use a good quality, reliable torque wrench.

Force

Common sense should dictate how much force is necessary in assembly and disassembly. If a part seems especially difficult to remove or install, stop and examine what may be causing the problem. Whenever tapping is necessary, tap lightly using a wooden or plastic-faced mallet. Use an impact driver for screws (particularly for the removal of screws held by a locking agent) in order to avoid damaging the screw heads. It also may be necessary to apply heat to some parts held with locking compound.

Edges

Watch for sharp edges, especially during major engine disassembly and assembly. Protect your hands with gloves or a piece of thick cloth when lifting the engine or turning it over.

High-Flash Point Solvent

A high-flash point solvent is recommended to reduce fire danger. A commercial solvent commonly available in North America is Stoddard solvent (generic name). Always follow manufacturer and container directions regarding the use of any solvent.

Gasket, O-Ring

Do not reuse a gasket or O-ring once it has been in service. The mating surfaces around the gasket should be free of foreign matter and perfectly smooth to avoid oil or compression leaks.

Liquid Gasket, Non-Permanent Locking Agent

Follow manufacturer's directions for cleaning and preparing surfaces where these compounds will be used. Apply sparingly. Excessive amounts may block engine oil passages and cause serious damage. An example of a non-permanent locking agent commonly available in North America is Loctite® Lock'n Seal (Blue).

Press

A part installed using a press or driver, such as a wheel bearing, should first be coated with oil on its outer or inner circumference so that it will go into place smoothly.

Oil Seal and Grease Seal

Replace any oil or grease seals that were removed with new ones since removal generally damages seals. When pressing in a seal which has manufacturer's marks, press it in with the marks facing out. Seals should be pressed into place using a suitable driver, which contacts evenly with the side of the seal, until the face of the seal is even with the end of the hole. Always use assembly oil or grease on lip (sealing edge) of any seal prior to assembly.

Circlip, Retaining Ring

Replace any circlips and retaining rings that were removed with new ones, as removal weakens and deforms them. When installing circlips and retaining rings, take care to compress or expand them only enough to install them and no more.

Cotter Pin

Replace any cotter pins that were removed with new ones since removal deforms and breaks them.

Lubrication

Engine wear is generally at its maximum while the engine is warming up and before all rubbing surfaces have an adequate lubricative film. During assembly, oil or grease (whichever is more suitable) should be applied to any rubbing surface which has lost its lubricating film. Old grease and dirty oil should be cleaned off. Deteriorated grease has lost its lubricating quality and may contain abrasive foreign particles.

Do not use just any oil or grease. Some oils and greases in particular should be used only in certain applications and may be harmful if used in an application for which they are not intended. This manual makes reference to molybdenum disulfide grease (MoS2) in the assembly of certain engine and chassis parts. Always check manufacturer recommendations before using such special lubricants.

Replacement Parts

When there is a replacement instruction, replace these parts with new ones every time they are removed. These replacement parts will be damaged or lose their original function once removed.

Inspection

When parts have been disassembled, visually inspect these parts for following the conditions or other damage. If there is any doubt as to the condition of them, replace them with new ones.

Abrasion	Cracks	Hardening	Warping
Bending	Dents	Scratches	Wear
Color change	Deterioration	Seizure	

Specifications

Specification terms are defined as follows:

“Standards”: Shows dimensions or performances which brand-new parts or systems have.

“Service limits”: Indicates the useable limits. If measurement shows excessive wear or deteriorated performance, replace the damaged parts with new.

Factory Service Manuals avalable.

General order and shipment policy

J&J Amusements, Inc. appreciates our customers. We will do our best to provide quality parts and service. Your business is important to us, so we want you to fully understand our policy guidelines. Remember they are only guidelines: questions, suggestions and even complaints are always welcome.

New accounts: New accounts are welcome! Open account terms are available to customers upon credit approval. Contact us for a credit application. Please be sure to furnish accurate, complete, year-round mailing and shipping addresses and phone numbers. Credit approval takes approximately 2 weeks.

Open account terms: Customers with approved credit applications are allowed net prices as long as payment is received within 30 days of invoice date. A late fee of 1.5% Per month will be assessed to the balance on any past due invoice. In addition, if your account is 60 days past due can be placed on credit hold until past due balance is resolved.

Credit cards: For your convenience we accept Mastercard, Discover, and American Express. We never charge your credit card until we ship your order.

Bank wire: Please contact us for bank wiring instructions. E-mail: accounting@jjamusements.Com

Ordering: It is important to order all parts by their correct part number. This will speed your order and help eliminate errors. You may phone, fax or e-mail your orders.

Phone orders: U.S. & Canada 1-800-854-3140 | International orders 1-503-304-8899.

Fax orders: U.S. & Canada 1-800-366-7505 | International orders call 1-503-304-1899.

To ensure accuracy, the fax form in the back of this book must be filled out completely with customer number, bill to, ship to, phone number and shipping (ground, 2nd day, overnight, overnight saturday, or truck line). Every line item must have the part number, quantity and description clearly printed.

E-mail orders: Use our online e-mail parts order form, e-mail directly to j&j: parts@funpartsxpress.Com

Hours: Business hours are 8:00am to 4:30pm pacific time, monday through friday. Fax and e-mail orders can be received 24 hours a day.

Prices: J&J Amusements, Inc. Makes every effort to offer competitive prices and to maintain pricing for the life of the annual catalog. In some cases, price adjustments must be made and J&J Amusements, Inc. Reserves the right to change pricing without notice.

Back orders: Back orders are shipped automatically with the same terms as the original order. Back orders will be shipped asap unless you elect to batch all back orders for periodic shipment or cancel all back orders. You must notify J&J Amusements, Inc. In writing if you wish to utilize either of the above options.

Shipping: We will endeavor to ship all orders the same day and do our best to follow your special shipping instructions. We normally ship orders under 150 lbs. By ups. Larger orders will be shipped by freight lines.

COD shipment: Large orders shipped COD will be divided into two or more cartons. The total COD amount will be pro-rated by the value of each carton's contents. COD orders of $1,000 or more are shipped cashiers check only. COD charge per box is $12.00.

Refused COD shipments: Our full restocking fee, plus freight both ways, will be charged to your next order if you refuse a cod shipment.

Bad checks: Any account having a returned check (for any reason) will be placed on cod cash only. To avoid legal action, the check must be redeemed by a certified check or bank money order and all returned checks will be charged a $25.00 Fee. If legal action is necessary, the customer will be responsible for all charges incurred in collection.

Urgent part orders: UPO's should be submitted only when fastest service is required to provide individual customer satisfaction. Upo's are given highest priority handling by J&J Amusements, Inc. This order method should not be used for stocking purposes. All extra shipping and handling charges incurred will be charged to customer.

Shortages: Must be reported at the time the package is opened - no exceptions. All orders are checked for accuracy after picking and are weighed to 1/10th of an ounce to give us three ways of checking.

Hidden damage: Must be reported at the time the package is opened - no exceptions. All boxes and packing must be saved to receive credit for damages. We will pay shipping charges.

Freight damage: If packages delivered by freight carrier arrive in broken or mutilated boxes, or if shipments are incomplete, be sure the driver notes this on your bill of lading. Claims against freight carriers are made by the recipient, not J&J Amusements, Inc..

Returned goods policy: A return merchandise authorization (rma#) is required for all returns. No exceptions. The rma# must be displayed on exterior of return shipping carton. Only items authorized (listed) on rma# may be returned. Obsolete and discontinued merchandise cannot be returned (current merchandise is that which appears in current annual catalog/price book). A 15% restocking fee will be charged on all returns, except for errors made by J&J Amusements, Inc. Freight will be paid by customer except for shipping errors caused by J&J Amusements, Inc. Returned merchandise must be in good resale condition, in original J&J Amusements, Inc. Package (where applicable) and cannot be altered with customer labels, stickers, numbers etc.. Returned goods which do not have an rma# will be refused.

Warranty return policy: All warranty item returns must be authorized by the warranty department and have an assigned rma# before any adjustment or credit will be given. The rma# must appear next to the shipping label on all returned items for proper credit to be issued. All credits issued will be applied to future purchases

Taxes: Prices in this book do not include your state, local, or other applicable sales taxes or any other taxes that may be required. The purchaser is responsible for all tax associated with purchasing goods and must take all steps required to pay directly all taxes due.

Double check all part numbers and descriptions before placing order.

Please call or e-mail us at parts@funpartsxpress.Com, toll free at 1-800-854-3140 or
1-503-304-8899 For assistance.

To Place An Order:

J&J & FPX makes it easy to place your order anytime. Send us a fax or e-mail, or give us a call. All orders receive immediate attention and ship straight to your facility.

If you fax your order, it's very important to order all parts by their correct part number. This will speed your order and help eliminate errors. You may phone your order using our toll free number (1-800-854-3140) or fax your order to 1-800-366-7505. For customers outside the US, call 503-304-8899 or fax 503-304-1899. For e-mail, our address is parts@funpartsxpress.com

****Note on fax orders:** Fax forms in the back of this book must be filled out completely with customer number, bill to, ship to, phone number and shipping (ground, 2nd day, overnight, overnight Saturday). Every line item must have the part number, quantity and description.

Office Hours

Our offices are open to receive phone orders

Pacific	8:00am to 4:30pm
Mountain	9:00am to 5:30pm
Central	10:00am to 6:30pm
Eastern	11:00am to 7:30pm
Greenwich	4:00pm to 12:30am
Geneva	5:00pm to 1:30am
Buenos Aires	1:00pm to 9:30pm
Tokyo	1:00am to 9:30am
Sydney	2:00am to 10:30am

Return Policy

Absolutely no returns permitted after 30 days.
Rma number required for all returns; all items received without rma number displayed on outside of package will be refused.
No returns without prior authorization.

Ordering Procedures:

Follow these simple guidelines, whether you call, fax or e-mail.

When you call, please have:

1. Your customer number
2. Item number and description
3. Current parts manual for quick reference

When you fax:

1. List customer number, phone number, and proper bill to and shipping address.
2. List quantity, item number and description clearly
3. Note shipping method desired

When you e-mail:

1. List customer number and proper bill to and ship to address.
2. List quantity, item number and descriptions clearly
3. Note shipping method desired
4. List return e-mail address and phone number

Orders will ship UPS Regular if not stated otherwise.

COOL-TEK ENDURANCE CLUTCH PLATES, LAST LONGER AND COST LESS THAN OEM!

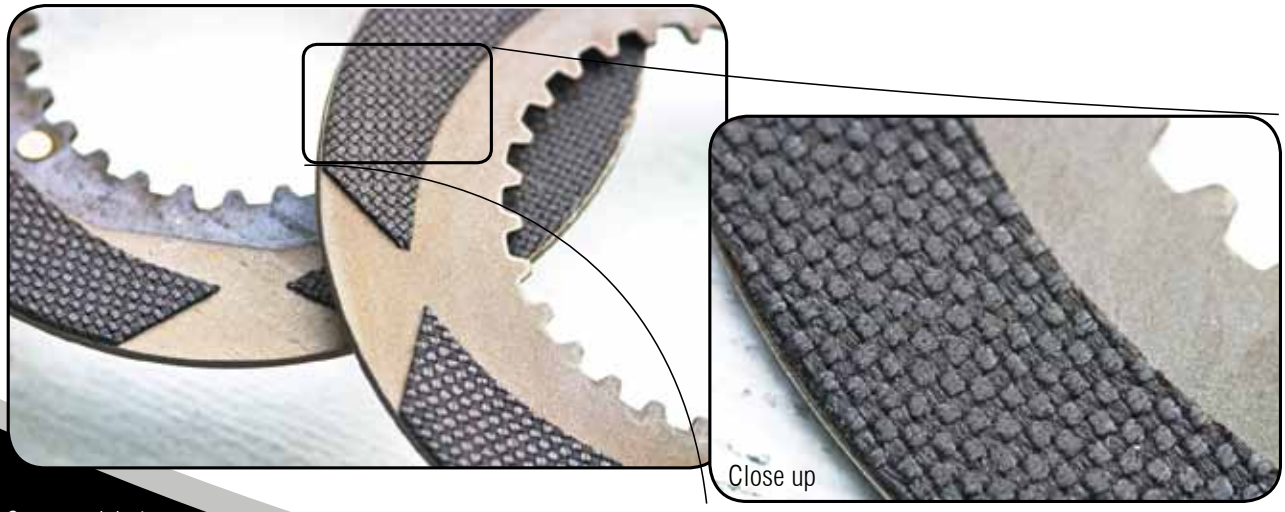
The great enemy of any clutch material is heat, with sludge and foreign material a close second. To combat these wear elements, J&J sought out the latest in high-tech material and coupled this with a cooler-running, segmented design, resulting in a truly revolutionary product. Words like “revolutionary” and “high-tech” always get thrown around when new products come along, but this time, it just plain works.

We have tested the plates under extreme conditions: full load under full stall with the oil drained from the clutch housing. This drove the outside case temperatures to an excess of 580 degrees F! Smoke pouring from all available openings, the system still worked. After a short cool-down, the kart drove away with the clutch functioning normally.

Under long term testing, the clutch oil remained clean, showing only slight discoloration even after extended periods of use. Sludge build-up was minimal, which should result in more run time between changes.

You have seen nothing like it, because nothing else works like it.

Innovation - it’s what we do!



Segmented design

The kicker – they cost less than OEM.

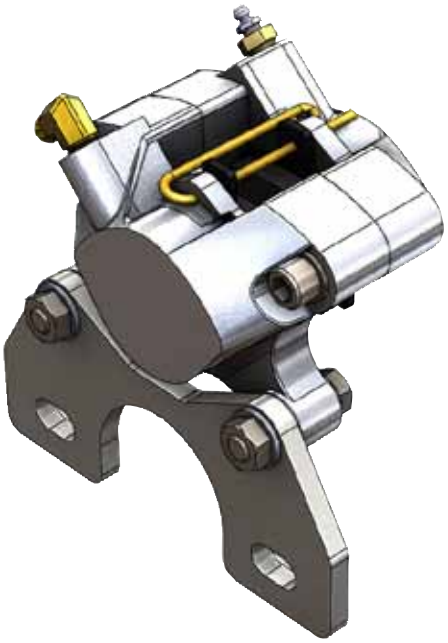
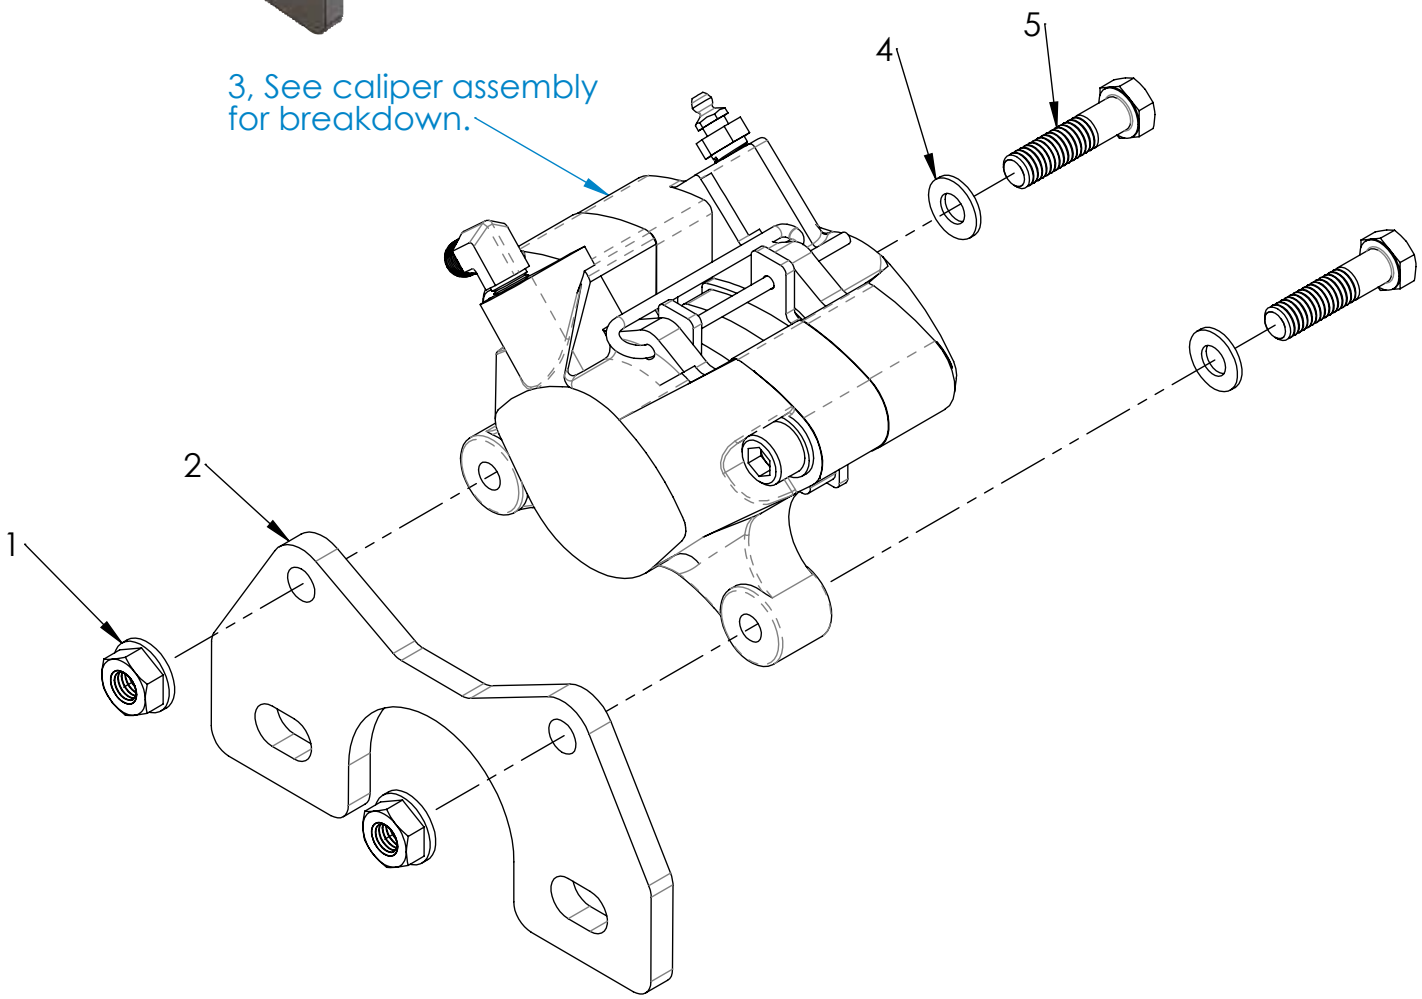
2 Wheel drive brake assembly (live axle)

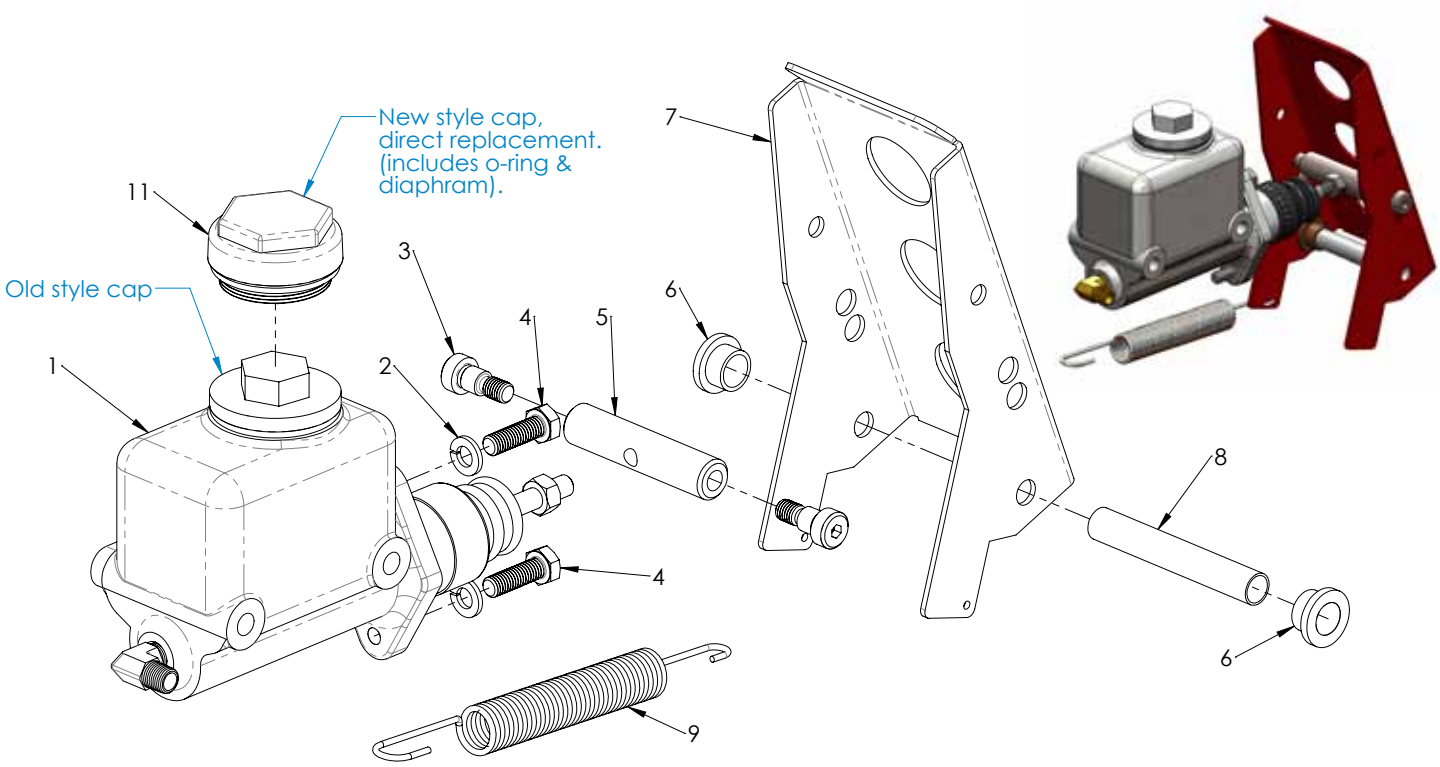




Ref #	FPX #	Description	Price
1	00930	Nut, 3/8-16 Z Flange	$0.38
2	010870	Bracket, Caliper (1” OR 1-1/4” Axle)	$16.00
3	1-80-0034	Caliper, Brake “Silver FPX”	$75.00
4	009581	Washer, 5/16 SAE Flat Thru Hard	$0.14
5	00926	Bolt, 3/8-16 x 1-1/2 B5-Z	$0.30

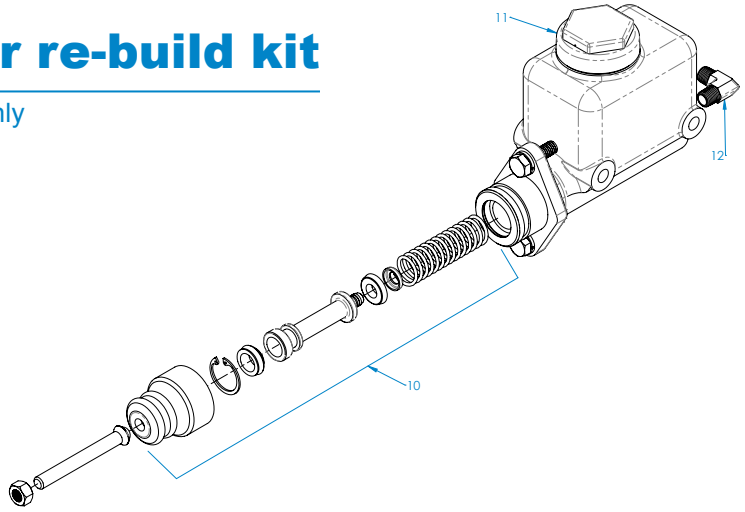
Specifications and prices subject to change without notice | Illustrations depicted in this parts book are for parts ordering only. Always check service manual for proper assembly.

Brake pedal / master cylinder



Master cylinder re-build kit

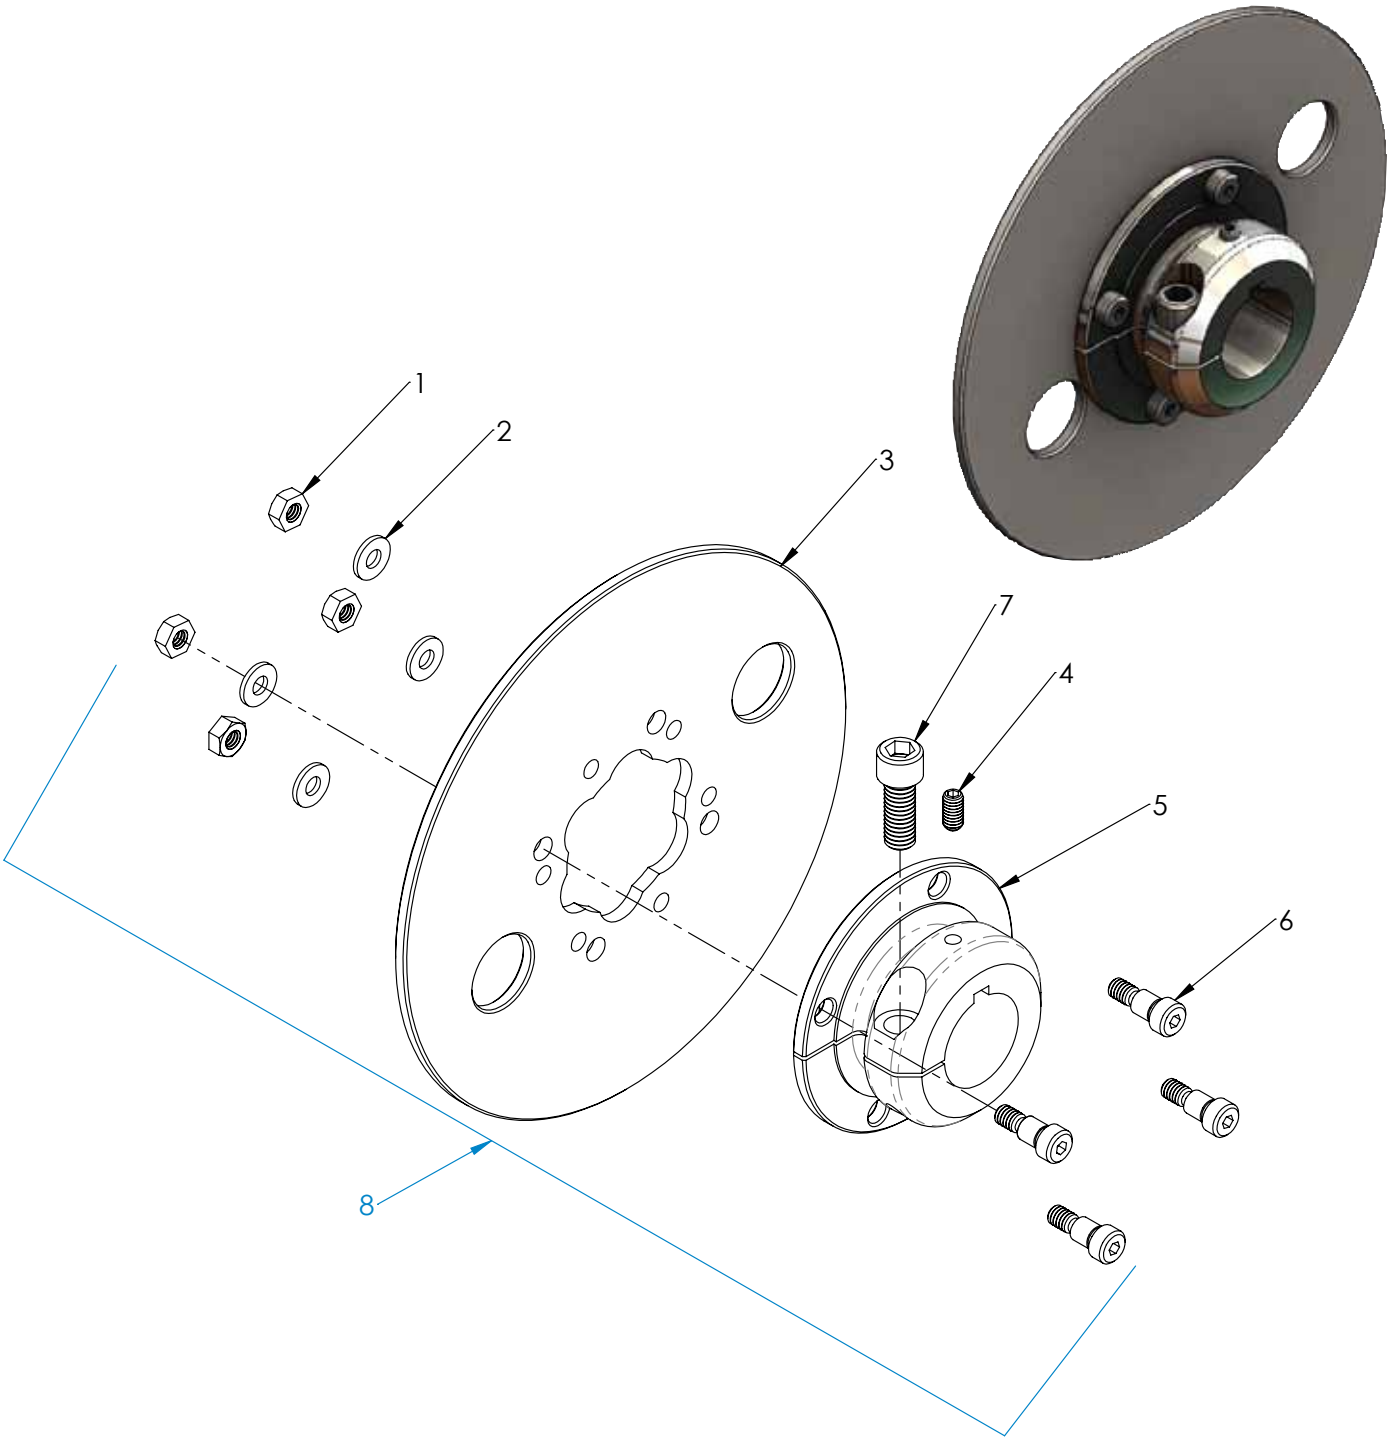
Master cylinder re-build kit includes only items shown as reference #10



Ref #	FPX #	Description	Price
1	A010941T	Master Cylinder Assy, FPX 3/4” Bore W/ Fitting	$75.00
2	00962	Washer, 5/16 Z Lock	$0.15
3	01374	Bolt, 3/8-16 x 3/8 Strip SS	$2.82
4	00951	Bolt, 5/16-24 x 1 SHCS (Wheel Stud)	$0.31
5	101091	Brake Adjuster, Master Cylinder Brake (304 stainless)	$13.75
6	1-60-0291	Bushing, Pedal(post 09)PAX Steering Bronze FLG 1/2x1/2x5/8	$1.99
7	01387KIT	Pedal, Brake (Single/Double)	$22.63
8	00913	Sleeve, Pedal	$5.46
9	00901	Spring, Pedal 7”	$4.71
10	1-80-0038	Rebuild Kit, M/C FPX 3/4” Bore	$18.00
11	1-80-0039	Cap, FPX Master Cylinder (Steel) Includes Diaphram	$9.85
12	01085	Fitting, 1/8” npt x #4 jic 90deg.$3.25	$3.25

Brake disc hub assembly

Used on single wheel drive and 2 wheel drive go-karts.

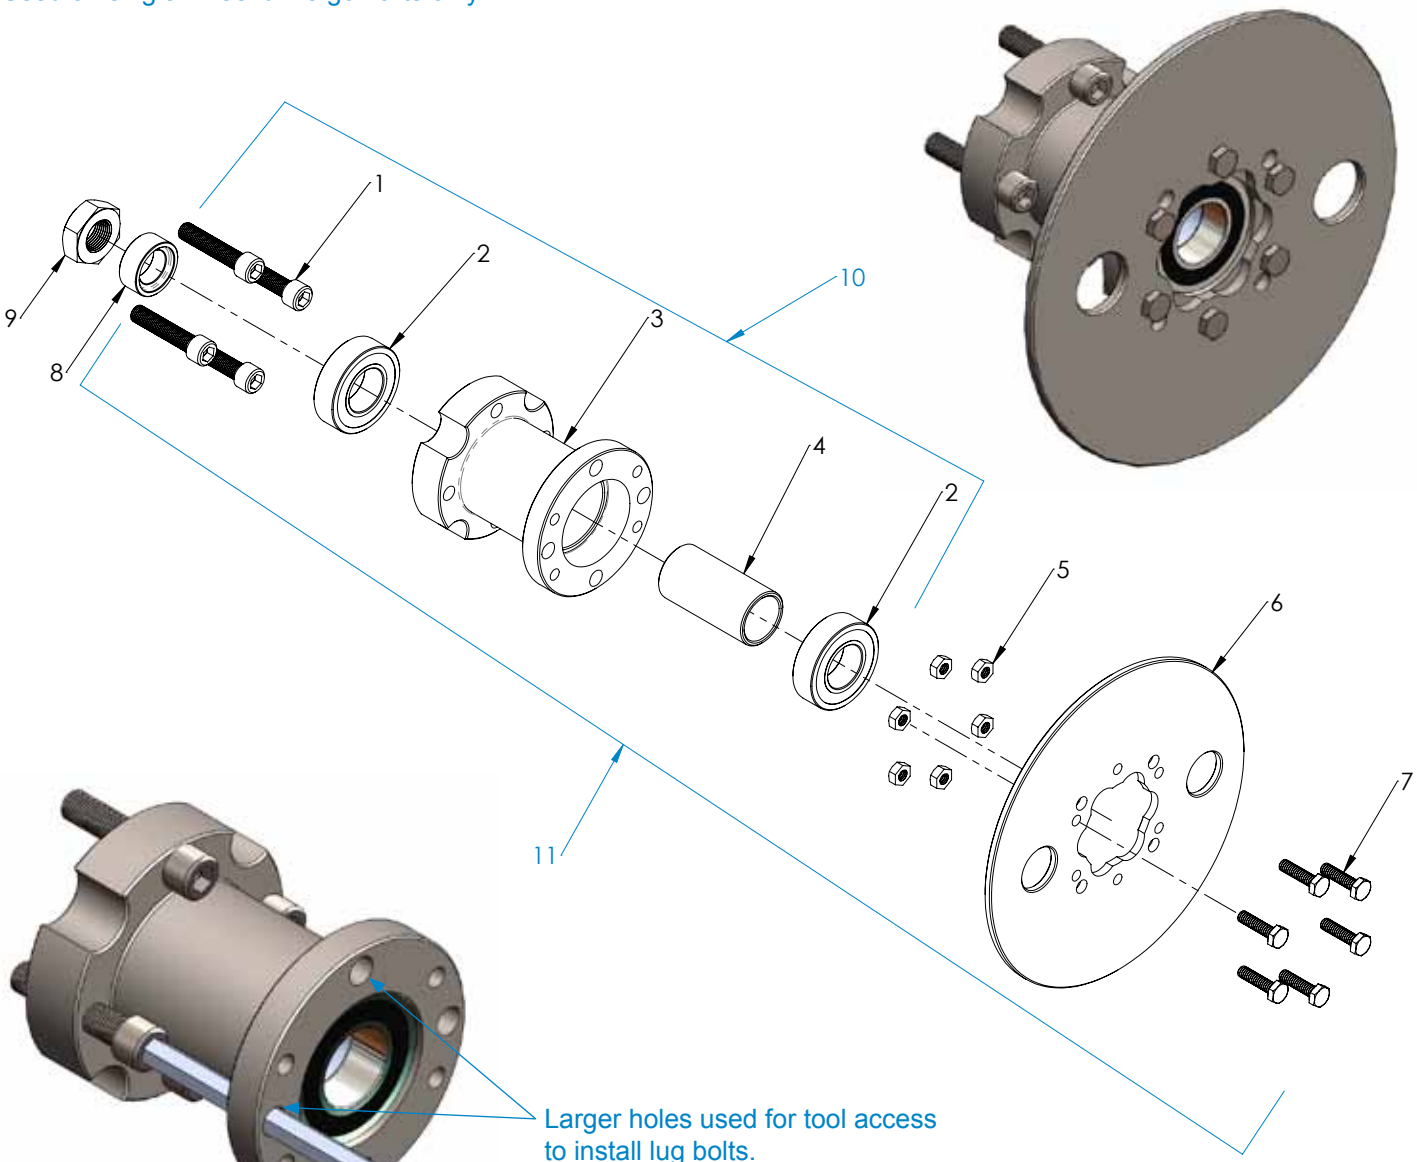


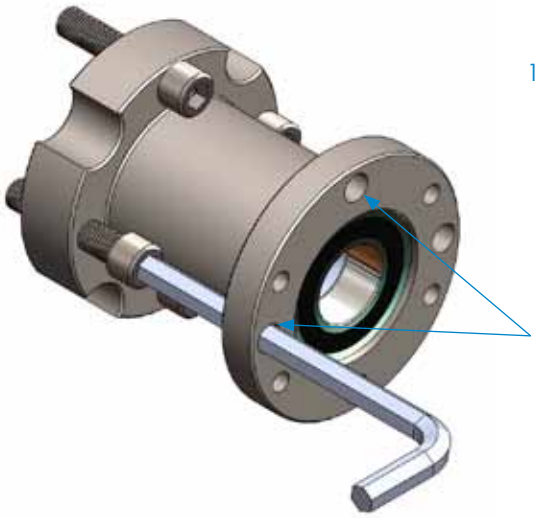
Ref #	FPX #	Description	Price
1	009481	Nut, 1/4-20 Top Lock	$0.13
2	002865	Washer, #12 Z Flat	$0.08
3	01043	Disc, Brake .190” x 7.50” Steel	$39.25
4	00871	Screw, 1/4-20 x 1/2 Soc/Set/Scrw Knurl Point	$0.38
5	1-80-0053	Hub, Brake Disc/Drum-4 Bolt 1 1/4”	$65.00
6	1-50-0196	Bolt, 5/16 x 3/8 Shoulder 1/4-20 Threads S/S (Wing & Hub)	$1.85
7	1-50-0212	Bolt, 5/16 x 3/8 Shoulder 1/4-20 Threads	$1.85
8	1-80-A0030	Hub Assy, Brake 1-1/4” Steel W/ 3/16” Disc	$93.82

Specifications and prices subject to change without notice | Illustrations depicted in this parts book are for parts ordering only. Always check service manual for proper assembly.

Floater hub / brake disc

Used on single wheel drive go-karts only.

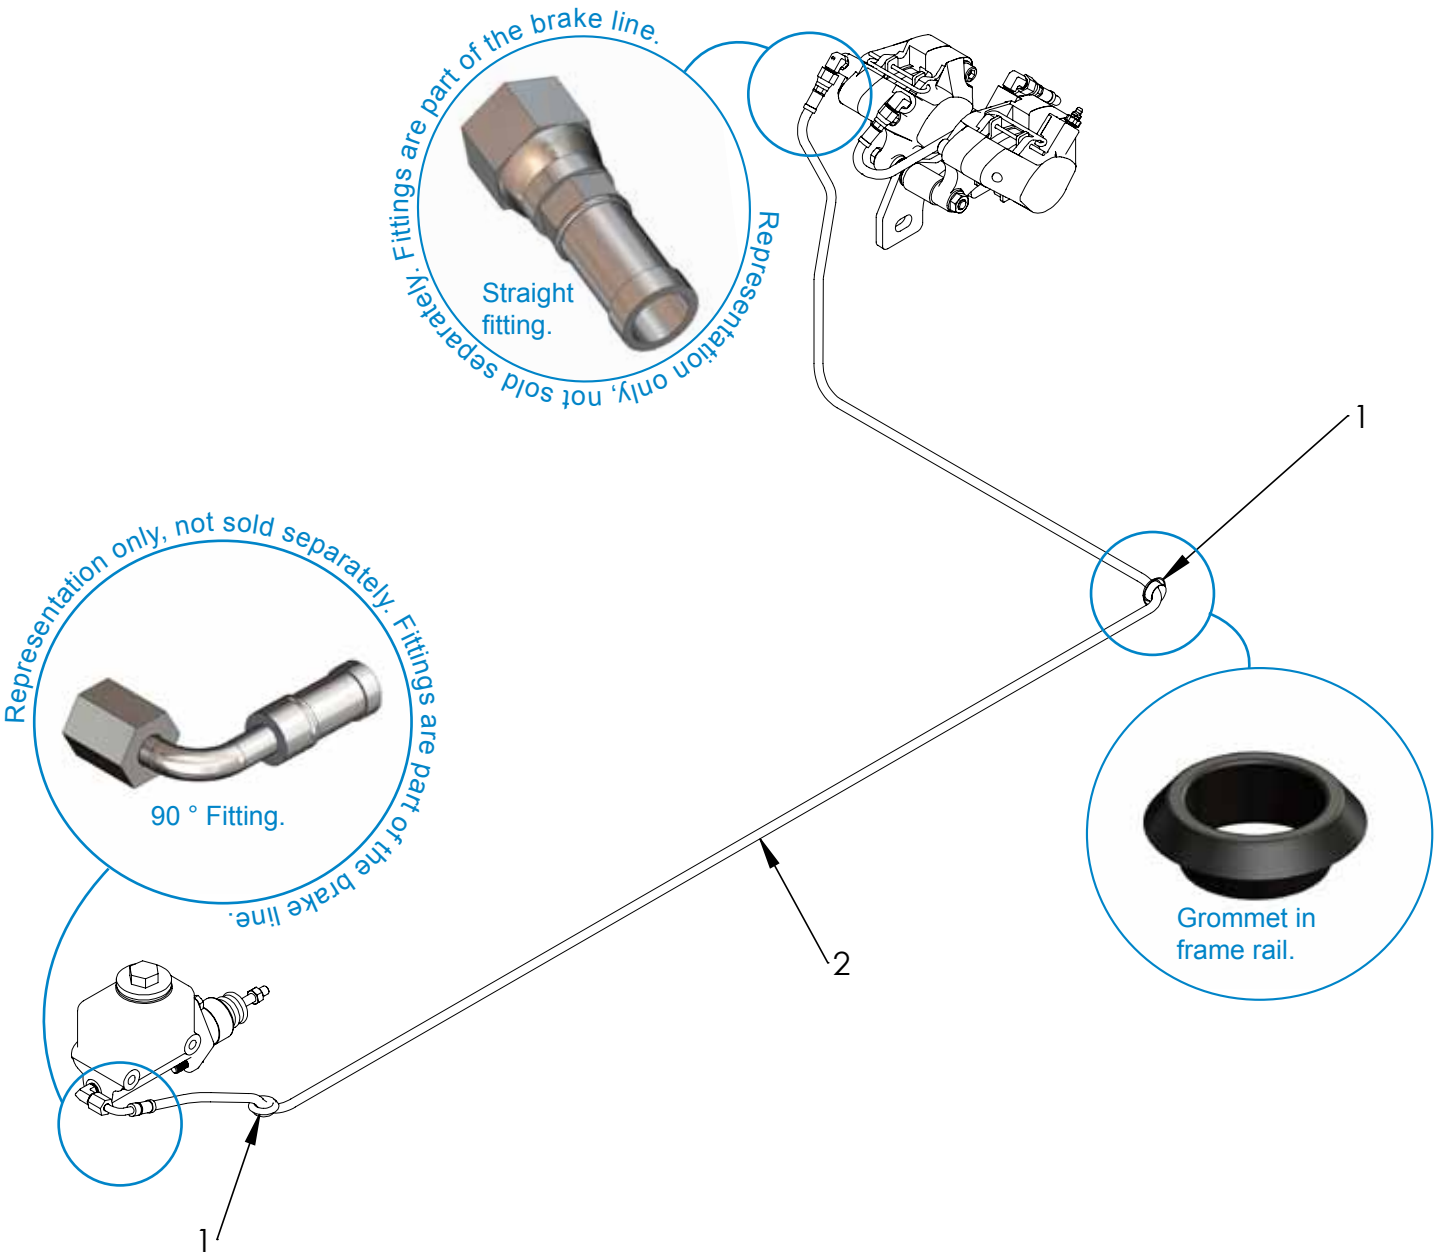




Larger holes used for tool access to install lug bolts.
When installing a new brake disc, tighten the bolts in the 4 smaller holes first to allow the disc to center, then install and tighten to two bolts in the larger holes.

Ref #	FPX #	Description	Price
1	1-50-0190	Bolt, 3/8-24 x 1-3/4 SHCS (Wheel Stud for Floater Hub 09-Up)	$2.70
2	010611	Bearing, Floater Hub (Tight Race)	$12.44
3	0105971	Hub, Floater Disc Brake(Tight Race)(3/8” Studs) Rev F	$73.30
4	008514	Spacer, Floater Hub Inner (Tight Race)	$6.00
5	009481	Nut, 1/4-20 Top Lock	$0.13
6	01043	Disc, Brake .190” x 7.50” Steel	$39.25
7	00877	Bolt, 1/4-20 x 1 B5-Z	$0.24
8	1-20-0016	Spacer, Axle Cupped-Acroloy Outer Floater Hub	$11.00
9	1-50-0108	Nut, 3/4-16 Nylock Jam	$1.80
10	A0105971	Hub Assy., Floater “Tight Race” 3/8” Studs W/Bearing No Disc	$82.35
11	A0105971D	Hub Assy., Floater “Tight Race” 3/8” Studs 3/16” Disc	$114.56

Brake line - master to calipers



Representation only, not sold separately. Fittings are part of the brake line.
Straight fitting.
Representation only, not sold separately. Fittings are part of the brake line.
90 ° Fitting.
Grommet in frame rail.

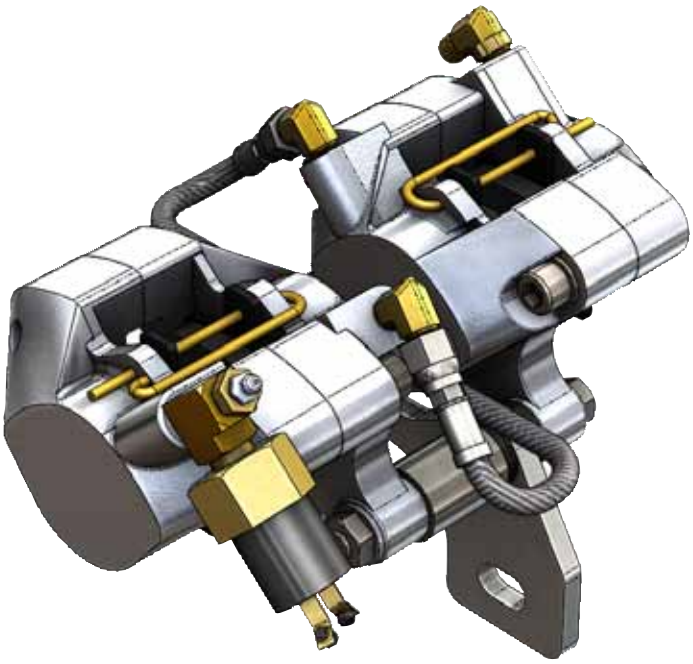
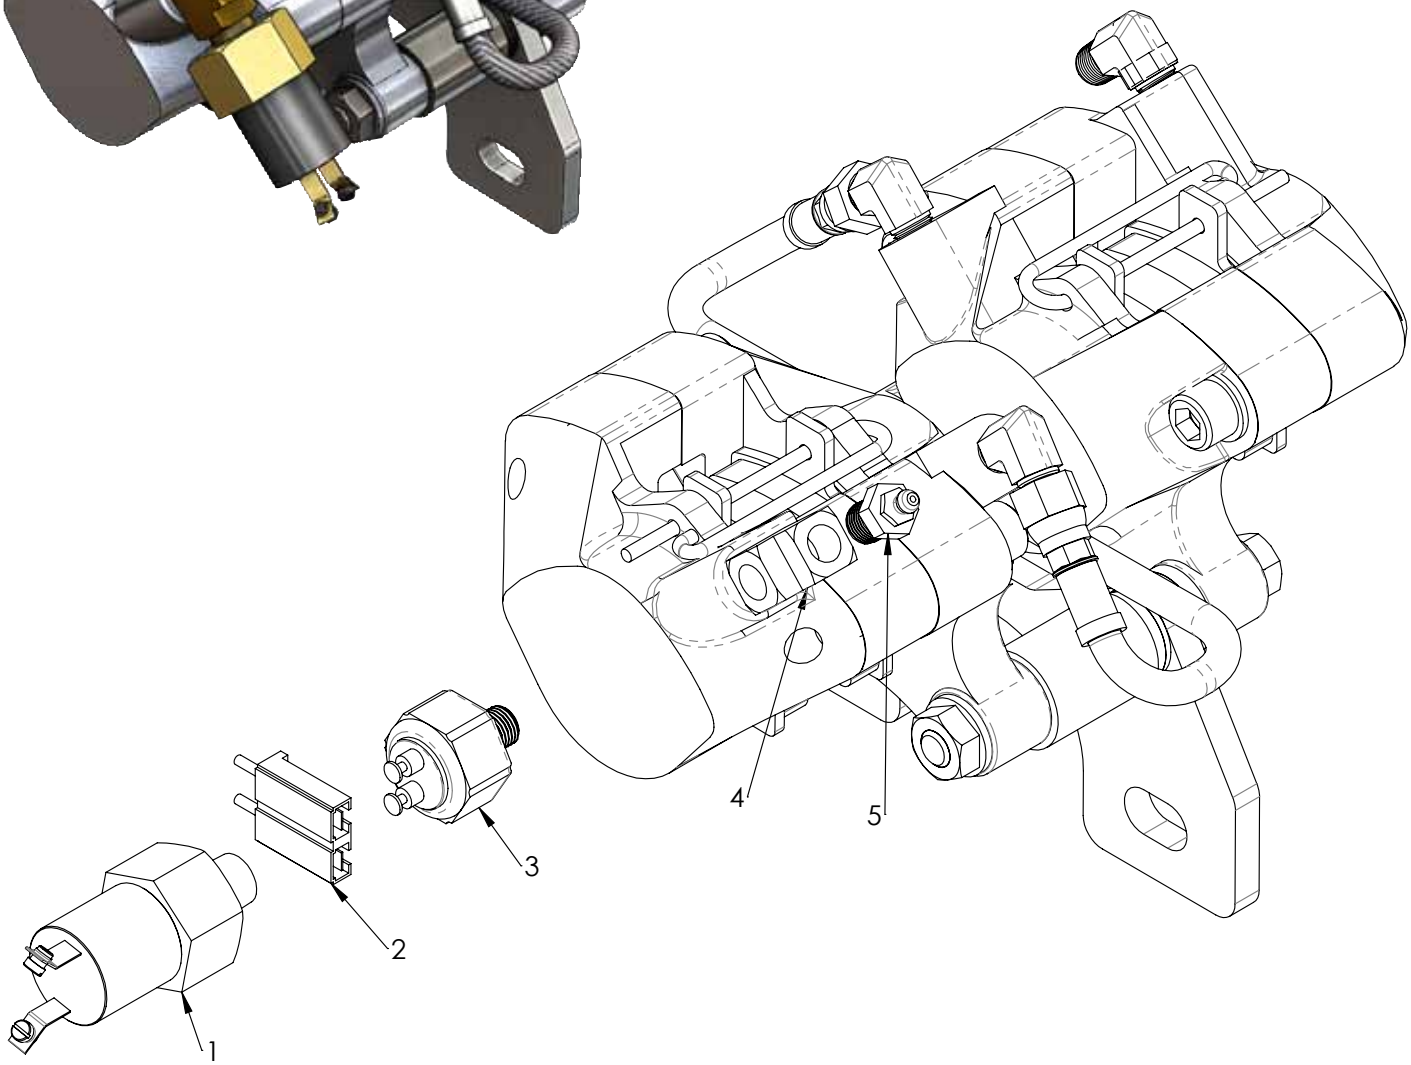
Brake light pressure switch





This switch used on electric go-karts only.

Ref #	FPX #	Description	Price
1	1-15-0017	Switch, Brake NASON (used on electric kart)	$96.90
2	ARC120	Connector, Hydraulic Brake Switch To Wiring Harness	$6.02
3	008530	Switch, Brake Hydraulic Light Pressure	$18.60
4	1-15-0034	Fitting, 1/8” Pipe Size Tee Male x Female x Female	$39.86
5	01114	Bleeder Valve, Enginetics/Wilwood	$3.54

Having trouble with stubborn axles or bleeding brakes?

BLEED YOUR BRAKES WITH EASE. EASY TO USE POWER BLEEDER SIMPLY WORKS GREAT. REDUCES PEDAL MUSH BY FORCING ALL THE AIR OUT OF THE SYSTEM!

Power brake bleeder tool
#3-96-0032 $84.99

BEARING SETTER TOOL.

This handy tool makes setting the tapered sleeve on your axle bearings a cinch.

Use this tool in conjuction with the spanner wrench below to ensure your bearings are locked down correctly.

Bearing setter tool,
#3-96-0104 $36.99

AXLE BEARING SPANNER WRENCH.

Tightening axle bearings to the correct tension is essential and can only be accomplished with the right tool.

Axle bearing spanner wrench,
#1-60-0193 $16.83

Get the same tools that J&J used to build your go-kart!

THE SCORPION
(Available as two-seater)

Protect your investment and keep your go-karts looking new.

Faded go-kart bodies? Cracked seat pads? 303 aerospace protectant is the answer.

We've all witnessed what the Sun's damaging UV light can do to fiberglass, paint, vinyl, etc. Go-karts, bumper boats and probably most of the products used at your facility used some or all of these components. So how do you protect and keep them looking fresh during their long service life?

The answer is to protect the surface with sunscreen and 303's Aerospace Protectant has it, SPF 40! That's Sun Protection Factor 40!

This non-silicone based sunscreen is not a cleanser. Use mild soap and water to clean your fiberglass and seat pads first, rinse with clean water, then simply spray on and wipe in the 303, just like you would on your own body.

With regular use, 303 will keep your go-karts and bumper boats looking fresh and shiny...your customers will appreciate it too.

Try some today!

Protectant, 303 Aerospace 2 oz. pump sprayer
#3-60-0033 $2.75

Protectant, 303 Aerospace 32 oz. trigger sprayer
3-60-0034 $24.43

Just like the big warehouse stores, at J&J you can purchase bulk quantities and save money!

Protectant, 303 Aerospace 128 oz. gallon refill
#3-60-0035 $64.21

Protectant, 303 Aerospace 5 gallon Bucket
#3-60-0037 $279.99

Keep the Sun's damaging UV away with 303 Aerospace Protectant

10	1-60-0346	Fuse, 1 Amp ATC	$3.37

Battery voltage tester - electric go-karts

This battery accessory makes checking the 4 battery system in your go-kart simple and easy.
Simply install a wire harness and bracket kit (#3) on each go-kart, then plug in the meter (#1) to read all 4 batteries at once. Makes finding individual bad batteries a cinch.
